Installation Guide

1. Meross smart garage door opener is the companion device of your existing garage door opener. Its main working principle is as follows.

Power

Wall

Garage door

Opener power head

2. Download the Meross app and choose Smart Garage Door Opener to get start.

App Store

GET IT ON Google Play

Available at amazon

3. Power on the device. Wait about 5 seconds until the status LED blinks amber and green.
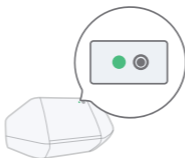

4. Connect the device to your home WiFi with Meross app.

**5.** Connect the sensor cable. Move the sensor to check if it is functional*.

*Please contact support@meross.com for help if the sensor is not functional.

6. **Find a proper position on the garage door to mount the sensors*. Please make sure the distance between the two sensors is less than 1 inch when the garage door is closed, and the two sensors are well separated when the garage door is open.**

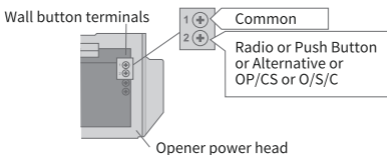

Wall

Garage door

1 inch apart

Wall
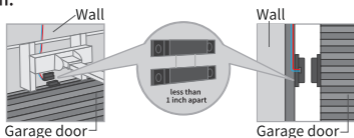

Garage door

*You can use the included double-sided adhesive tapes or screws for sensor fixation.

7. **Power off your smart garage door opener first. Then screw the signal control cable into the slots. Wire order does not matter here.**
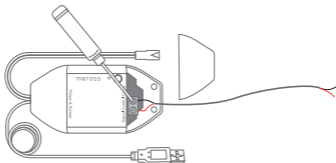

8. **Power off your existing garage door opener. Connect the other end of the signal control cable to the two terminals that connects to the wall button. Wire order does not matter here, too.**

Wall button terminals

1 ⊕ — Common

2 ⊕ — Radio or Push Button or Alternative or OP/CS or O/S/C

Opener power head

9. **Deploy the device.** We recommend to deploy it on the top of your existing garage door opener. Use the provided double-sided adhesive tapes for the fixation if necessary.

Power cord

Device
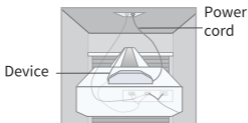

10. **Power on both existing garage door opener and smart garage door opener.** The smart garage door opener will reconnect to Meross cloud service automatically. Congratulations! You have completed all installation steps.

Amazon Alexa   WORKS WITH
amazon alexa

Meross provides two types of voice commands for Amazon Alexa.
If you choose "Meross" skill, the commands are as following:

- *"Hi Alexa, lock/unlock my garage."*
- *"Hi Alexa, is my garage locked?"*

Note: Please replace "garage" to the garage door name you set.
Amazon Alexa support Security Code, you can enable it via Amazon Alexa app.

If you choose "Smart Meross" skill, the commands are as following:

- *"Hi Alexa, ask Smart Meross to open/close the garage door one/two/..."*
- *"Can I have your PIN code?"*

Or

- *"Hi Alexa, open Smart Meross."*
- *"Open/Close garage one/two/..."*
- *"Can I have your PIN code?"*
- *"Check garage."*

Note: PIN code is an optional setting.

Google Assistant: works with the Google Assistant

The same as Amazon Alexa, Meross provides two types of voice commands for Google Assisant.

If you choose "Meross" action, the commands are as following:

- *"Hey Google, open/close my garage."*
- *"Can I have your security code?"*
- *"Hey Google, is my garage opened/closed?"*

Note: Please replace "garage" to the garage door name you set.

If you choose "Smart Meross" customerized action, the commands are as following:
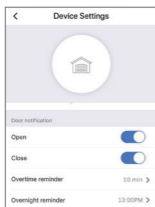

- *"Hey Google, ask Smart Meross to open/close the garage door one/two/..."*
- *"Can I have your PIN code?"*
- *"Hey Google, ask Smart Meross to check the garage door two?"*

Or

- *"Hey Google, talk to Smart Meross"*
- *"Open/Close garage two."*
- *"Can I have your PIN code?"*
- *"Check garage."*

Note: PIN code is an optional setting.
