LED Rules

Blinking 3 times:
Initialization process finished, entering into configuration mode.
Smoothly flashing from Red to Green to Blue to Warm to White: Successfully configured.

**Installation Guide**

1. Download the Meross app.

![Download links](https://via.placeholder.com/150)

2. Swap the current bulb with your Meross smart bulb.*
* Metal lamp shades may decrease your Meross smart bulb’s performance.
* Meross smart bulbs only support 2.4GHz networks.

3. Set up the device.
   (1) Connect your smartphone or tablet to the 2.4 GHz Wi-Fi.
   (2) The smart LED bulb supports iOS 13/ iPadOS 13 and later. In order to have better user experience, it is recommended that you upgrade your iOS or iPadOS to the latest version before pairing with the bulb.
   (3) Launch the Meross app, and log in to your account, or if you are a new user, tap Sign up to create a new account.
   (4) Tap the “+” icon to select the type of smart device you want to add, then you can just follow the setup wizard to finish configuration.
Note:
1. As long as you finish configuration, you’ll also be able to manage the device in Apple Home app.
2. If the QR code does not work, please try to add the smart bulb in Apple Home app.
3. Should you have any question, please visit https://www.meross.com/support#/.
How to Use

1. General Settings

Device name:
Change device name.

User manual:
Check user manual.

2. Voice Control

Amazon Alexa & Google Assistant:
Check how to pair Amazon alexa and Google assistant on Account->Integration.

Amazon Alexa:
The example commands are as follows:
- “Alexa, set the smart bulb to red.”
- “Alexa, set the smart bulb warmer.”
- “Alexa, dim smart bulb by 30%.”
Google Assistant:  
The example commands are as follows:
- “Hey Google, brighten smart bulb.”
- “Hey Google, set the smart bulb to cool white.”
- “Hey Google, change the smart bulb to magenta.”

HomeKit Siri:  
The example commands are as follows:
- “Hey Siri, turn on the livingroom light.”
- “Hey Siri, turn off the livingroom light.”
- “Hey Siri, is the living room light on?”

Note: Please replace "smart bulb" / "livingroom light" to the device name you set.

3. Widgets
Widget are the quick access to your Meross devices and Scenes. To enable it, please go to Account -> Widget to add shortcuts first. And
then follow below steps on your smartphones to activate them.

For iPhones:
1. Swipe to the right on your Home or Lock screen.
2. Scroll down to the bottom of your widget list and then tap edit.
3. Scroll down to find Meross and add it.

For Android smartphones:
1. On the home screen, tap and hold on an available space.
2. Tap Widgets, find Meross widget and then add it.

FAQ

At Meross, we strive to assure your satisfaction. Attached below is a non-exhaustive list of questions that users are mostly concerned about.
1. How do I reset my Meross smart bulb?
Turn the light switch controlling the bulb to OFF first, then flip the light switch on and off 3 times. Note that factory reset the smart bulb will erase all of your custom settings, and you’ll have to set it up again.

2. Can I dim my Meross smart bulb with standard in-wall dimmer?
No. Meross smart bulb does not support standard in-wall dimmer. You can dim it via Meross app.

3. My Home app can’t add the device by scanning the QR code.
You can tap “Don’t Have a Code or Can’t Scan” and input the code manually.
4. I can’t pair my device with HomeKit anyhow.

Please make sure your iOS is connecting to the 2.4GHz home Wi-Fi and you are having iOS 13 or later. Restart your iOS will help due to some system cache issue.
