**Safety Information**
- Place on flat or secure surface.
- ONLY use the supplied AC power adapter.
- Please do not disassemble the device, otherwise there may be product damage or security risks.
- Keep the lamp dry and clean.
- Avoid any extreme heat sources or direct sunlight.
- Don’t touch electrical parts with wet hands.
- Never overload electrical circuits as it may cause electrical shock or fire.

**Package Contents**
- 1 x User Manual
- 1 x Power Adapter
- 2 x Fastener
- 1 x Small Hexagon Wrench
- 1 x Smart Desk Lamp

**Lamp Size**
- 423mm (16.7 inch)
- 394mm (15.6 inch)
- 167mm (6.57 inch)
- 25mm (0.98 inch)

**Installation Guide**
1. Fasten the screw in the rear with the small wrench.
2. Download the Meross app.
3. Connect power cable and power the device up.
4. Set up the device.
   - (1) Connect your smartphone or tablet to the 2.4 GHz Wi-Fi.
   - (2) The smart device supports iOS 10 or iPadOS 13 and later. In order to have better user experience, it is recommended that you upgrade your iOS or iPadOS to the latest version before pairing with the device.
   - (3) Launch the Meross app, and log in to your account, or if you are a new user, tap Sign up to create a new account.
   - (4) Tap the “+” icon to select the type of smart device you want to add, then you can just follow the setup wizard to finish configuration.
   - (5) Relocation of the smart device does not require additional operations provided that it remains on the same network with strong Wi-Fi signal.

**NOTE**
1. As long as you finish configuration, you’ll also be able to manage the device in Apple Home app.
2. If the QR code does not work, please try to add the device in Apple Home app.
3. Find more at https://www.meross.com/support/

  - Short press “-” to minimize the brightness.
  - Slide touch can change the brightness as well.
  - Long press “+” to change cooler temperature.
  - Long press “-” to change warmer temperature.

**How to Use**
1. **Voice Control**
   - Amazon Alexa & Google Assistant:
     - Check how to pair Amazon Alexa and Google assistant on Account->Integrations.

   - **Amazon Alexa:**
     - The example commands are as follows:
       - “Alexa, set the smart desk lamp warmer.”
       - “Alexa, dim smart desk lamp by 30%.”

   - **Google Assistant:**
     - The example commands are as follows:
       - “Hey Google, brighten smart desk lamp.”
       - “Hey Google, set the smart desk lamp to cool white.”

   - **HomeKit Siri:**
     - The example commands are as follows:
       - “Hey Siri, brighter smart desk lamp.”
       - “Hey Siri, set the smart desk lamp to cool white.
       - “Hey Siri, dim smart desk lamp by 30%.”

2. **Widgets**
   - Widgets are the quick access to your Meross devices and Scenes. To enable it, please go to Account -> Widget to add shortcuts first. And then follow below steps on your smartphones to activate them.

   - For iPhones:
     1. Swipe to the right on your Home or Lock screen.
     2. Scroll down to the bottom of your widget list and then tap edit.
     3. Scroll down to find Meross and add it.

   - For Android smartphones:
     1. On the home screen, tap and hold on an available space.
     2. Tap Widgets, find Meross widget and then add it.
FAQ
At Meross, we strive to assure your satisfaction. Attached below is a non-exhaustive list of questions that users are mostly concerned about.

1. How do I reset my Meross Smart Desk Lamp?
   - Hold the power button for 5 seconds, it will reset and enter Wi-Fi configuration mode. Note that factory reset will erase all of your custom settings, and you’ll have to set it up again.

2. What should I do when my Meross app is unable to control the added Smart Desk Lamp?
   - Check the existing Wi-Fi internet connection.
   - Make sure the main Wi-Fi password hasn’t been changed.
   - Hold power button for 5 seconds to reset and try to add it again.

3. How do I pair my Meross devices with Amazon Alexa or Google Assistant?
   - Visit Account -> Amazon Alexa or Google Assistant page within Meross app for pairing instructions.

4. My Home app can’t add the device by scanning the QR code. You can tap “Don’t Have a Code or Can’t Scan” and input the code manually.

5. I can’t pair my devices with HomeKit anyhow.
   - Make sure your iOS is connecting to the 2.4GHz of your home Wi-Fi and your iOS is having iOS 13 or above. Restart your iOS will help due to some system cache issue.

Canadian Compliance Statement
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada’s licence-exempt RSS(s).
Operation is subject to the following two conditions:
1) This device may not cause interference.
2) This device must accept any interference, including interference that may cause undesired operation of the device.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian Information on RF exposure and compliance.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

Canadian furniture should not be placed or used in a manner or with any other antenna or device. This equipment should not be installed or operated with a minimum distance of 20 centimeters between the radiator and your body.

FCC Compliance Information Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1) This device may not cause harmful interference, and
2) This device must accept any interference, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced TV/RF technician for help. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
